open **API** + open **Data** = open **Health Data Platform**

<h3>A simple yet powerful API</h3> <p>Health app development shouldn't be harder than other verticals. EhrScape is all about making awesome healthcare apps easy to build and integrate into your environment.</p>	<h3>Healthcare computing as a service</h3> <p>Healthcare computing that just works. EhrScape handles all the hard bits, including detailed clinical models, semantic interoperability, vendor independent data storage, health data query and more.</p>	<h3>By developers for developers</h3> <p>Our mission is to empower you to build amazing healthcare apps and services. Welcome aboard. We're just getting started and we've got very big plans!</p>
