Kaj pričakujemo od šol?

- multidisciplinarnost
- povezava s tujino
- praktične naloge
- reševanje problemov
- sodelovanje z industrijo
Build amazing healthcare apps and services

open API + open Data = open Health Data Platform

A simple yet powerful API
Health app development shouldn’t be harder than other verticals. EhrScape is all about making awesome healthcare apps easy to build and integrate into your environment.

Healthcare computing as a service
Healthcare computing that just works. EhrScape handles all the hard bits, including detailed clinical models, semantic interoperability, vendor independent data storage, health data query and more.

By developers for developers
Our mission is to empower you to build amazing healthcare apps and services. Welcome aboard. We’re just getting started and we’ve got very big plans!
